## About Stichting Boxwise

Stichting Boxwise is located at Overschiesestraat 62 in Schiedam and is registered with the Chamber of Commerce under number 76346536. Stichting Boxwise was established on September 11, 2019.

The goal of the Stichting is: the development and operation of software for the benefit of aid organizations and everything related to or conducive to this. This goal does not include distributing benefits to the founder or to those who are part of organs of the Stichting. The Stichting' activities serve the public interest. The Stichting has no profit motive.

Stichting Boxwise is running and developing Boxtribute. Boxtribute is a digital system that works hand-in-hand with our partners in the field to deliver humanitarian aid quickly and fairly.

The codebase of Boxtribute is open source under the Apache-2.0 license and can be found [here](#). With the help of volunteer developers around the world, we maintain this open source project.

Additionally, Stichting Boxwise is hosting a server to offer Boxtribute as a Software-as-a-Service product to humanitarian organisations.

## Quick History

The initial version of Boxtribute was created in autumn 2016, at the height of the European refugee crisis. We - Maarten Hunink and the co-founders of Stichting Boxwise:

Bart Driessen and Hans Peter Gürtner - developed Boxtribute as volunteers for the organisation “A Drop in the Ocean” (DiH) in the refugee camp Nea Kavala in Northern Greece.

After this proof of concept, we implemented Boxtribute (back then called “Drop App”) in two more locations of DiH in Souda refugee camp on Chios and Skaramangas camp close to Athens.

Due to the subsequent interest of other humanitarian aid organisations, we began to make a Software-as-a-Service product of “Drop App”.

In 2018, we received the European Youth Award for our efforts.

With the help of the MAN Impact Accelerator in 2018/19 and our Co-Founders Roanna Kong and James Crowley, who joined in 2019, we managed to release Boxtribute for our first two organisations - Refugee4Refugees (R4R) and Intereuropean Human Aid Association (IHA).

In October 2019, we migrated DiH onto Boxtribute.

## Activities from Nov. 2019 until Dec. 2020

### Partner Organisations

In our first year, we concentrated on bringing new organisations on Boxtribute to verify that our digital system is useful in the field in different circumstances.

To onboard organisations we run introduction, demo and training calls and support them as much as possible to get quickly set up. It takes about a week’s time to set-up our Boxtribute for an organisation.

In 2019-2020, the following organisations used Boxtribute:

#### [Refugee4Refugees](#)

Locations: Lesvos (since July 2019), Samos (since March 2020)

#### [Intereuropean Human Aid Association](#)

Location: Lakadikia near Thessaloniki (since Aug 2019)

INTEREUROPEAN  
HUMAN AID  
ASSOCIATION

#### [A Drop in the Ocean](#)

Locations: Nea Kavala, Skaramangas, Elefsina (all since Nov 2019), Samos and Lesvos (since Nov 2020)

**Mobile Flüchtlingshilfe e.V. - Hermine**

Location: Würzburg, Germany (since Feb 2020)

**Lifting Hands International**

Location: Serres (since May 2020)

**Offene Arme e.V.**

Location: Chios (since June 2020)

Offene Arme e.V.

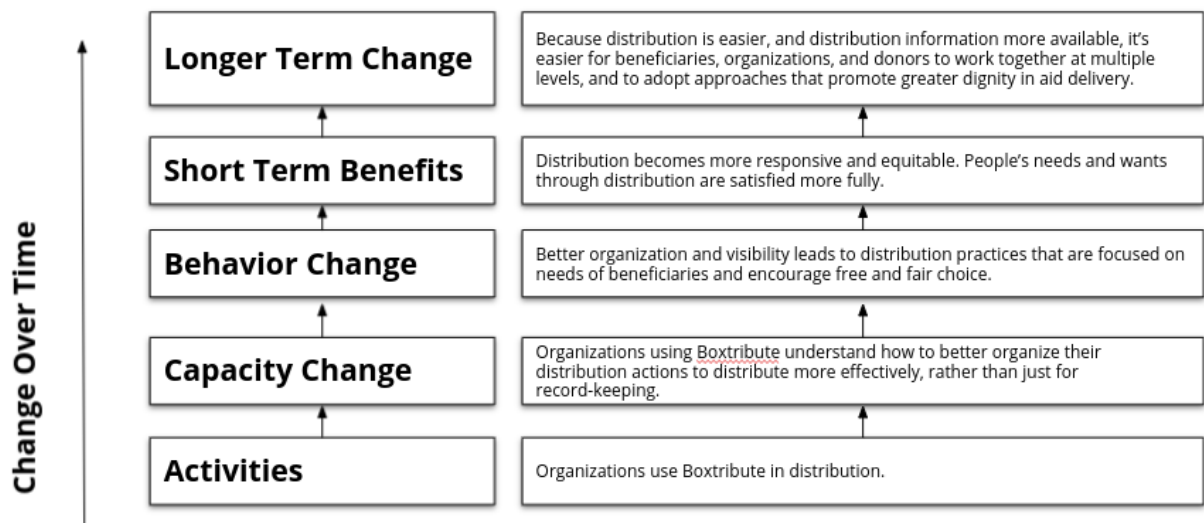

**Darbazar**

Location: Rome (since Nov 2020)

## Theory of Change

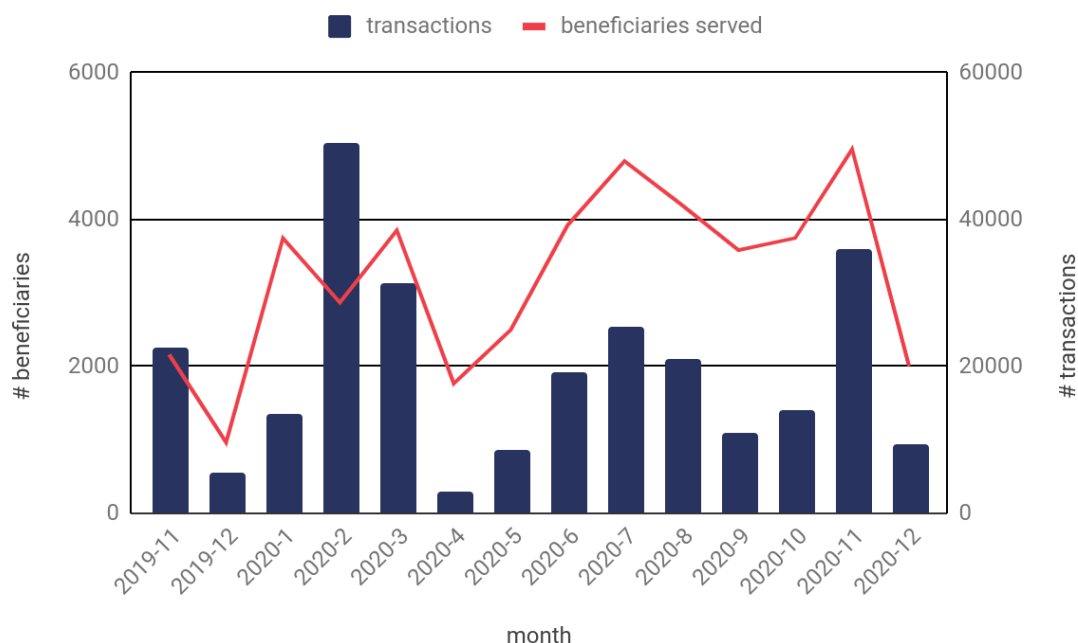

End of 2020, we developed a Theory of Change to map out our impact as an actor within the broader humanitarian sphere. This Theory of Change is the basis to align our processes and to measure if we are successful.

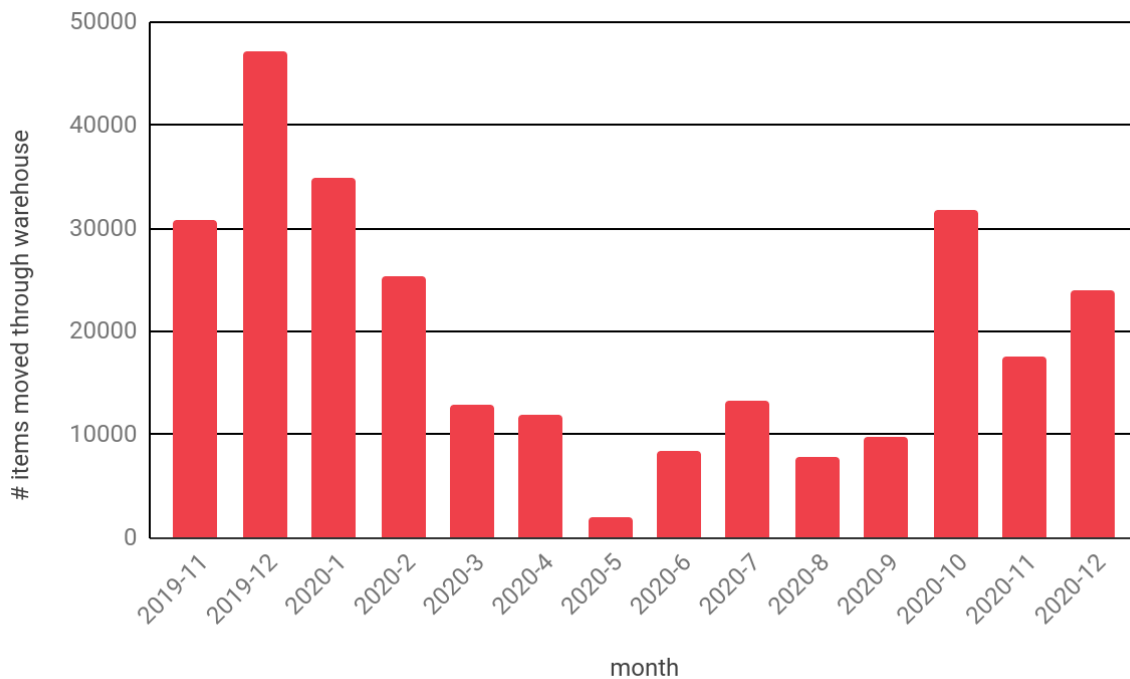

Picture 1: Theory of Change in the simplest representation

## Usage Statistics

In order to assess if we are on the right track on our Impact Pathway, we are tracking different output indicators. In 2020, we mainly looked into the Usage Statistics of Boxtribute to verify our focus on growth. Unfortunately, due to the outbreak of the COVID-19 pandemic we saw a lower usage level of Boxtribute than before. However, our users managed quickly to serve as many beneficiaries as before while reducing the amount of items distributed with Boxtribute.

## Thank You

A special thank you to all the volunteers who supported this project, without whom we would not have been able to make it this far.
